

# NEW CH PRODUCTS FLIGHT YOKE THE "ECLISPE"

Scheduled for takeoff in time for the Christmas, this ruggedized yoke is the first of several products added to our flight line.

CH Products is proud to release the latest and greatest in Flight Simulation hardware with the release of its new high end yoke, the new **CH Eclipse** !! Built with the same high end components you find in our industrial products, the CH Eclipse brings value added functions to compliment all your favorite sims.

## The Eclipse Yoke includes the following new features:

- Fully programmable fingertip paddles, ideal for flight and racing sims
- Programmable trim / scroll wheels with center push function
- Two backlit push buttons and a third traditional push button
- Two 8-way hat with rocker switch and trigger on both sides of handle
- Configurable POV hat for either left or right hand use
- Colored handles for throttle / prop / fuel mixture
- Three color LED selector dial giving you a total of 240 programmable functions with Control Manager software
- Six analog 10 bit axes for aileron, elevator, throttle, propeller pitch, fuel and rudder
- New and improved industrial grade material / components; indestructible robust plastic, free floating shaft and clamp extenders for the thinnest of desks

Availability: Early November 2008

RRP: £179.99
