

Are YOUR piloting skills up to the challenge?

You can put YOUR skills to the test in the cockpit of a high-performance aircraft . . . and experience the adrenalin rush of Carrier based flight

Carrier based flight offers you the ultimate challenge in aviation . . . try setting down a supersonic plane on a short, narrow deck only some 340 m long and 78 m wide. If you're up the challenge, you'll find CARRIER OPERATIONS offers you an impressive fleet of aircraft, each of them capable of keeping you on the edge of your seat as you practice your take-offs and landings on the aircraft carrier George Washington. The new arresting cables programme simulates an aircraft carrier's arrestor cables 'trapping' an aircraft that successfully 'grabs' the cables. The programme also allows aircraft to be launched from the carrier by simulating the catapults.

Each of your planes is dressed in authentic paint schemes and beautifully rendered, including animated flight control surfaces and extremely accurate flight models.

- Includes fully functioning, realistic arresting cables with catapult and booster shield.
- Practice your take-offs and landings on an incredibly detailed aircraft carrier . . . a NIMITZ CLASS.
- Includes 5 amazing aircraft and the aircraft carrier USS George Washington.

F/A 18 Hornet • F-14 Tomcat
AV-8b Harrier V/STOL
Sea Knight Helicopter • E2-C Hawkeye
