

FIRST CLASS SIMULATIONS

PRESS RELEASE – 1st November 2004

Product: London & South East
Developer: Making Tracks
Genre Train driving Simulation
Release 19th November 2004
SRP £24.99

CLICK-ITY CLICK, CLICK-ITY CLUNK!

The next train to arrive at platform 3 will NOT be the eagerly anticipated **London & South East** Microsoft™ Train Simulator add-on from First Class Simulations. The delay is nothing to do with a defective junction box at New Maldern or seasonable manpower shortages at Clapham Junction however.

"First Class Simulations is sorry to announce that Microsoft Train Simulator add-on London & the South East is being delayed this morning due to over running engineering works but will be available on Friday, November 19th. We apologise for any inconvenience this may cause to your sales targets."

Even though it's true, this is the long, boring way of saying that **London & South East** is so jam-packed with original late 1960's era London railway stations, rolling stock and railway paraphernalia that the developers needed another two weeks to finish it!

cont'd
